STATEMENT

Statement on the murder of George Tiller

June 1, 2009

"The violence at the heart of every abortion and the abortion industry itself will never be ended by counter-violence. The killing of George Tiller is an inexcusable crime that cuts against everything pro-life Americans, and especially religious believers, stand for.

"We pray for Dr. Tiller and his family and for an end to the culture of violence that this country seems unable to escape. We ask Catholics across Colorado to do the same."

Archbishop of Denver
