

## Legal Abortion Maternal Death List

The following is a list of women killed by legal abortion through 1998. Because the majority of deaths from legal abortion are not recorded as such, this is only a partial accounting. Deaths listed as having occurred before 1973, are women who died in states which had legalized abortion prior to *Roe vs. Wade*.

All deaths contained here, plus an additional 242 anonymous women who are confirmed as having died from legal abortions, are documented through death certificates, autopsies, medical examiner reports, secular newspaper accounts, and/or independent medical journal articles. Those documents are on file at:
